

Mendham High School Families:

The West Morris Mendham High School Parent Teacher Organization (WMMHS PTO) has a new group called the Welcome Committee. Our goal is to welcome new families and students to the Mendham/Chester community and the High School.

We understand transitioning to a new school and town can be challenging. That's why we have created this committee, in conjunction with the guidance department, to help make the transition a little easier. We hope to connect current school families with new families who share similar interests and that are willing to help integrate them into our school and community. This might include answering any questions they may have about the school or town and having current students meet new students.

If your family is interested in befriending newcomers, please complete the Google Form below so you can be added to our database.

Please click on this [Google Form](#) and fill out the information requested. Once received, we will be in contact with you when new families and students arrive.

The WMMHS PTO is a group of dedicated parents who have volunteered our time for the enhancement of our school. Our primary objective is to partner with parents, teachers and administrators to promote the education, mental and physical welfare of our children. For more information regarding our PTO or to join please visit our website www.WMMHSPTO.org.

If you have any questions related to this new initiative, please feel free to contact us at WMMHSPTO@gmail.com.

Thank you!
